

Summary—Selected 1995 S&T Accomplishments

Tactical Goals FY96–97

SBSS

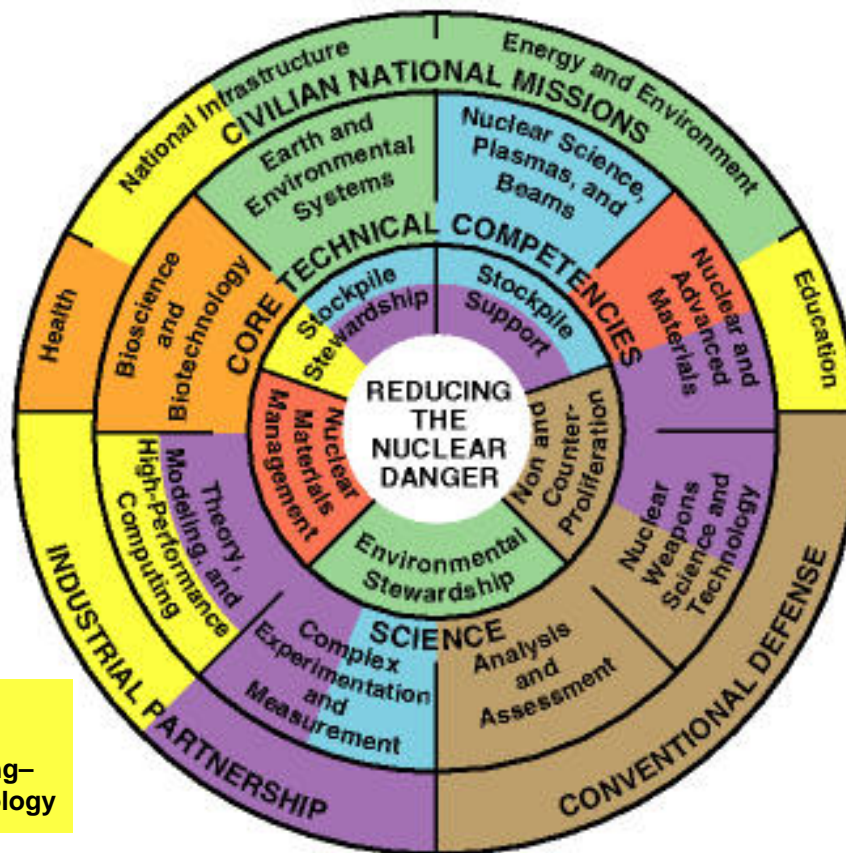

Science-Based
Stockpile Stewardship

Genome
and Beyond

Pu Future

HPC-IS&T

High-Performance Computing–
Information Science & Technology

Environmental
Science

Neutron Lab

NBC

Nuclear-Biological-Chemical
Nonproliferation

Strategies

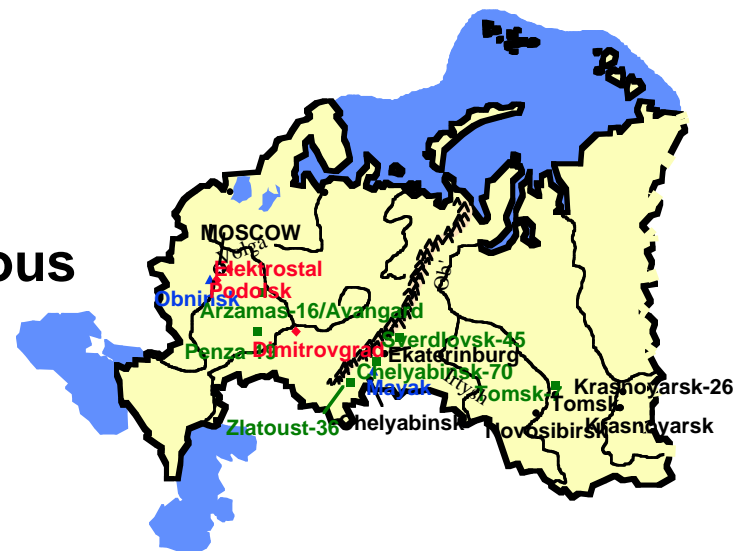

- National defense with nuclear focus
- Emphasize science, strengthen technical competencies within defense core
- Multiprogram environment feeds S&T competencies

Los Alamos

Los Alamos Must Continue to Play a Vital Role in the Nation's Security and Well-Being

- **Compelling mission**

John Barry—*Newsweek* Feb. 12, 1996—
"Arzamas-16 was once a very dangerous
place. Its ties to Los Alamos offer the
best hope that it will never be again."

- **Great Science**
